

KAZI MD. WAZEH ULLAH FARHAN

Dhaka, Bangladesh | +880 1828-658811 | wzullah.farhan@gmail.com | [Github](#) | [Linkedin](#)

PROFESSIONAL SUMMARY

Final-year Computer Science & Engineering student at AIUB, Dhaka, with hands-on experience building full-stack web applications using PHP, MySQL, and JavaScript. Core strengths include backend architecture, relational database design, and implementing authentication and access-control systems from the ground up. Expected graduation: September 2026. Seeking an internship opportunity in Software Development, Cybersecurity, AI/ML, or IT.

TECHNICAL SKILLS

Languages: PHP, Python, JavaScript (ES6+), SQL, C#, HTML5, CSS3, C, C++, Java

Frontend: AJAX / Fetch API, Bootstrap 5, Responsive Design, CSS Flexbox/Grid, DOM Manipulation

Backend: PHP 7.4+, REST API Design, Session Management, CSRF Protection, bcrypt Password Hashing

Database: MySQL 5.7+, SQL Server, Relational Schema Design, Normalization (3NF), CRUD, Stored Procedures

Tools & Version Control: Git, GitHub, VS Code, XAMPP, MySQL Workbench, Apache, TCPDF, Chrome DevTools

AI & Machine Learning: Prompt Engineering, Generative AI, LLMs, NLP, Model Evaluation, AI Workflow Automation

Networking: TCP/IP, OSI Model, Network Protocols, DNS, DHCP, HTTP/HTTPS

PROJECTS

Mealing Online — Multi-Role Hostel Meal Management System

PHP 7.4+ | MySQL | Bootstrap 5 | TCPDF | REST API

[GitHub](#)

- Built a full-stack web application for hostel and mess communities, replacing manual spreadsheet tracking and eliminating billing errors for house managers across multiple houses.
- Implemented a 3-tier role-based access control system (Super Admin / Manager / Member) with bcrypt password hashing, CSRF token protection, and session regeneration.
- Designed a normalized 8-table MySQL schema with foreign key constraints supporting multi-house data isolation.
- Engineered a RESTful API for real-time dashboard analytics, reducing monthly report generation time by 80% through automated TCPDF PDF exports.

Windows XP OS Portfolio — Browser-Based Interactive OS Clone

Vanilla JavaScript (ES6+) | HTML5 | CSS3

[Live](#) | [GitHub](#)

- Engineered a high-fidelity Windows XP desktop clone from scratch using pure Vanilla JS/CSS, achieving 60 FPS performance without external libraries.
- Recreated core XP UI behaviors — draggable/resizable windows, taskbar with clock, Start menu, and desktop icon management — achieving smooth, lag-free interactions with zero external dependency overhead.

GameHub — Browser-Based Gaming Platform

Vanilla JavaScript (ES6+) | HTML5 | CSS3 | LocalStorage

[Live](#) | [GitHub](#)

- Built a browser gaming platform hosting a curated collection of mini-games under a shared design system with a cross-game achievement and progress-tracking system using structured LocalStorage.

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern

Jul 2026 – Present

FlyRank AI, Remote (Chicago, IL)

- Selected as a Remote AI Intern at FlyRank AI, contributing to AI-powered projects and real-world business solutions for a global remote team.
- Apply Python, prompt engineering, and generative AI techniques to build and optimize LLM-driven workflows and automation tools.
- Gaining hands-on experience in model evaluation, workflow optimization, and AI application development through project-based research in NLP.

Freelance Web Developer

Jan 2024 – Present

Self-Employed, Remote

- Developed and deployed 5+ custom web applications for small businesses using PHP/MySQL, reducing manual administrative data entry time by approximately 30%.
- Architected responsive interfaces and CRUD modules, ensuring 100% cross-browser compatibility and mobile-first accessibility for client platforms.
- Managed each project independently end-to-end, validating cross-browser compatibility with Chrome DevTools and BrowserStack, and maintaining 99.9% uptime.

EDUCATION

B.Sc. in Computer Science and Engineering

Expected Sep 2026

American International University – Bangladesh (AIUB), Dhaka | CGPA: 3.57 / 4.00

- Relevant Coursework: Data Structures & Algorithms, OOP, Database Systems, Software Engineering, Web Development, Machine Learning, and Computer Networks.

Higher Secondary Certificate

2019 – 2021

Holy Land College, Dinajpur | GPA: 5.00 / 5.00

CONTINUING EDUCATION

- AWS Certified Cloud Practitioner (CLF-C02) — in progress
- Laravel, React, Node.js, Express — in progress
